WOOD CUTTING CONTRACTOR DUTY SERIES RADIAL ARM SAWS

Customers choose the Contractor Duty Radial Arm Saw for its industrial-grade performance and precise cutting capabilities. Whether you're working in a custom cabinet shop or a school vocational program, this saw makes reliable, high-quality cuts.

This model performs crosscuts, bevel cuts, and miter cuts and can swivel to a rip position, with an added rip kit, for accurate panel cutting. Radial arm saws ensure consistent, repeatable accuracy for any woodworking or cutting project.

Built to withstand heavy use, this American-made saw offers reliable cutting capabilities, handling materials over 3" deep and 21" wide. Its repeated accuracy makes it suitable for squaring shelving, doors, and other large materials, making it a dependable tool in your workshop for years to come.

This saw is perfect for custom cabinet shops, school vocational programs, and other professional environments where precision and reliability are paramount.

Optional Accessories

- Dust Collection Shroud
- Saw Measuring Systems
- Keyed E-Stop for Limiting Usage
- Saw Roller Extension Tables
- Saw Flat Extension Tables
- Saw Measuring Systems with Flip or Fixed Foot
- Saw Blades
- Lower Elevation Kit

Recent updates

- Yoke Assembly: Allows for precise bevel clamping on angles and swivels to rip with an optional rip kit.
- Arbor Motor Refinements: Enhancements to the arbor motor for better performance and reliability.
- High-Density Polyethylene Lower (HDPE) Guard: Provides full coverage, significantly improving safety.
- New Handle Grip: Designed for improved comfort and control during operation.
